

Adobe Sign and Workday.

Eliminate ink signatures and improve compliance with a comprehensive, preintegrated e-signature solution for Workday.

Adobe Sign, a Document Cloud solution, streamlines the signing process in Workday within any application—Human Capital Management (including Recruiting), Financial Management, Planning, Student, and Professional Services Automation. With trusted e-signatures from Adobe integrated directly into Workday Business Process Framework, your employees can accelerate signatures in processes such as NDAs, offer letters, onboarding, and training compliance. Easily collect legally binding e-signatures—from anywhere, on any device—to increase organizational efficiency and agility, reduce legal risk, and impress employees and contractors with a delightful digital experience. And because the integration is built and supported by Workday, you can be confident it will always be in sync with the latest Workday releases.

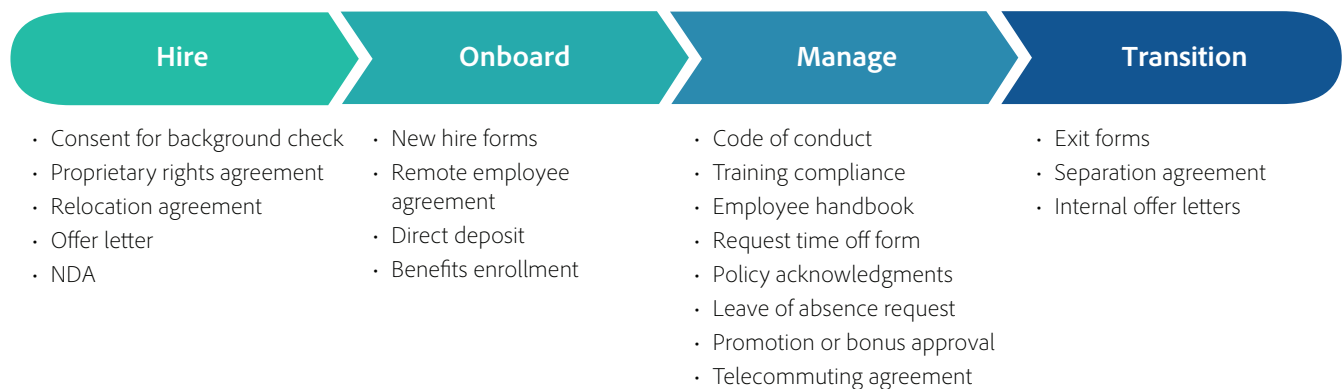

Easy to set up.

It's fast and easy to enable Adobe e-signature capabilities within Workday. Upon purchasing Adobe Sign, you will receive a license key for activation—no IT resources required to install, customize, or configure. Add Adobe e-signatures to any process within Workday Business Process Framework in minutes to streamline your existing processes even further.

Reduce legal risk and ensure compliance.

Replace ink signatures and approvals with Adobe e-signatures so you can be sure you're legally covered. Adobe Sign combines the benefits of modern e-signatures with fast, flexible cloud digital signatures, which work on any device, anywhere—and comply with the most stringent e-signature regulations in the world. Customers can use trusted, secure digital IDs, issued by Trust Service Providers, to verify their identities and sign documents in web browsers and mobile devices, without needing to install desktop software or external security tokens. Our cloud digital signatures are backed by the Cloud Signature Consortium.

Sample use cases for HCM.

Adobe Sign can be used with any Workday application.

Adobe's integration with Workday provides a 100% digital solution that reduces errors and helps ensure compliance with a complete digital record of signed transactions right in Workday. Easily keep track of when documents are signed and who signed them. Signed documents are automatically stored right in Workday so they're easy to search for, access, and manage.

You can also run reports to see exactly how many and which documents have been signed across your organization, giving you an enhanced view into your workforce.

Send once to many.

Only Adobe Sign for Workday integrates directly with Workday's Distribute Documents or Tasks business process so you can send the one agreement to multiple people for signing, all at once. In fact, with Adobe Sign, you can easily add e-signatures to any of over 400 Workday business processes to streamline your signature workflows and increase your organization's productivity. Going 100% digital gives your team valuable time back to spend on high-impact work instead of time-consuming, paper-based tasks.

Do away with paper, printers, scanners, fax machines, and express mail, and move to a simpler, smarter, faster solution—trusted e-signatures from Adobe right within Workday.

Deliver a more delightful experience, from desktop to mobile.

Impress new hires and employees alike with a more delightful and engaging digital experience for collecting signatures. Adobe's integration with Workday makes the signing process seamless while enhancing your employees' experience with your organization. By converting cumbersome, paper-based signatures processes into a modern, enjoyable experience, you'll be able to meet the needs of a mobile, digital world and better compete for top talent.

Employees receive a notification, either in their preferred email account or right within their Workday inbox, informing them there's a document waiting for their signature. Senders can initiate and recipients can complete the signing process in just a few quick clicks from anywhere, on any smartphone, tablet, or browser, without downloading or installing any software.
