

Create forms and worksheets with Acrobat.

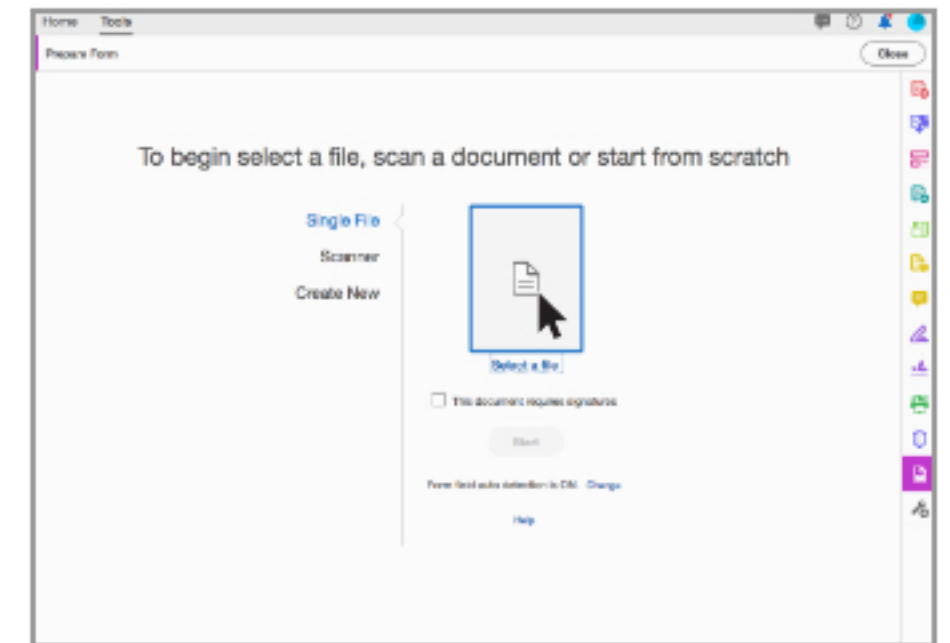

When you need to create forms or worksheets, Adobe Acrobat DC makes it easy. Turn a Microsoft Office file, paper form, or PDF into a fillable form, then share it with your students to complete and submit from any device.

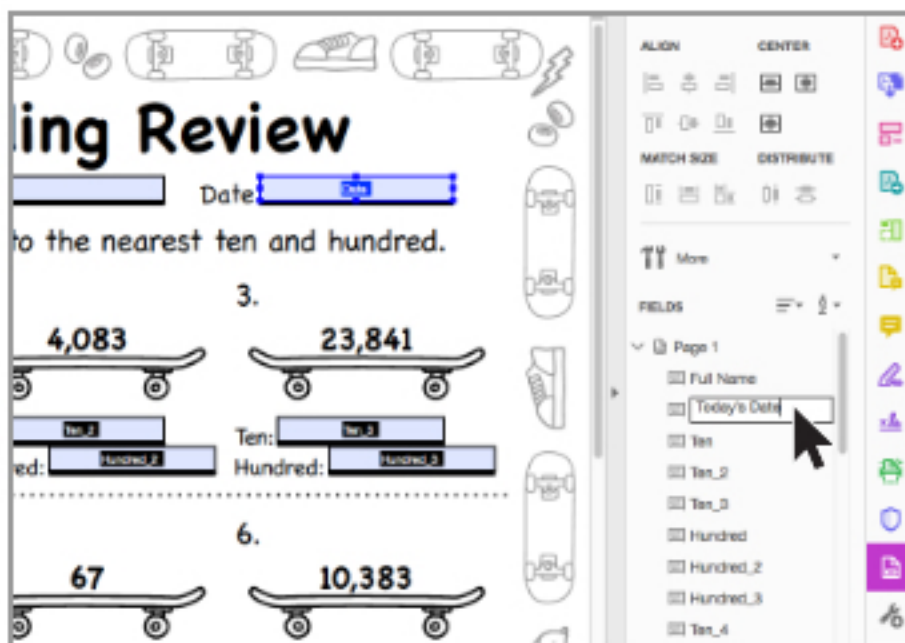

1 Open Acrobat DC and select the Tools tab.

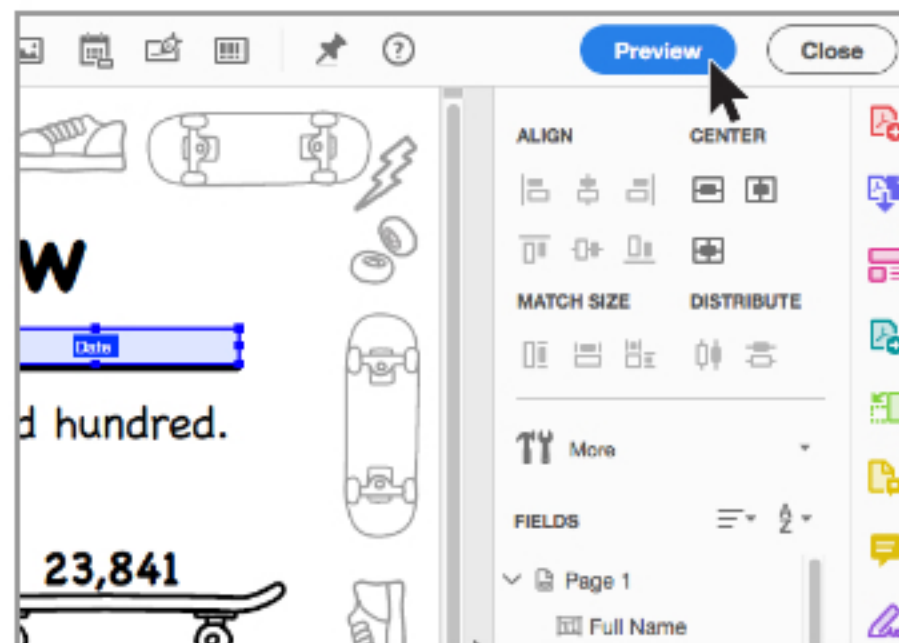

2 Open the Prepare Form tool.

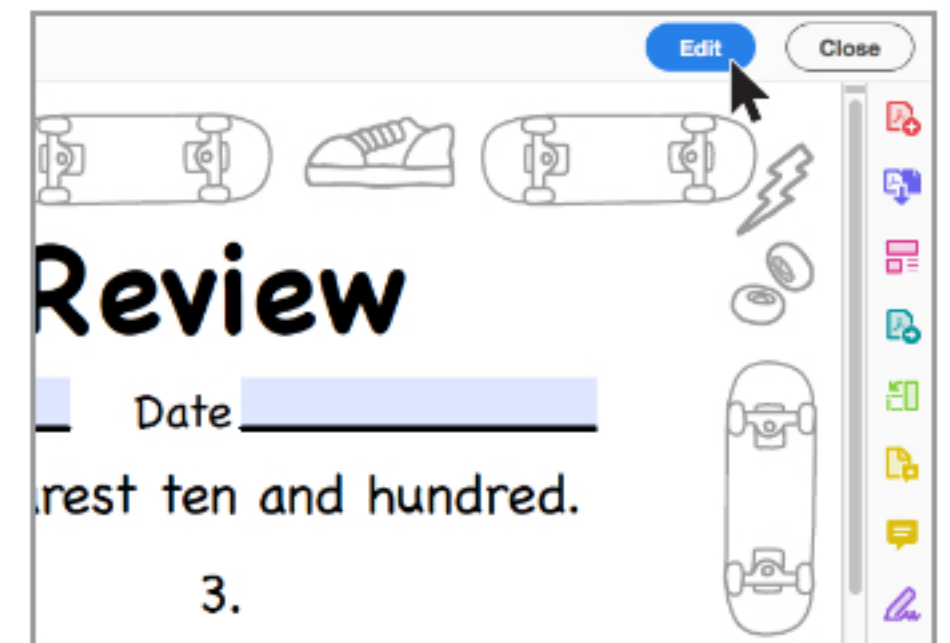

3 Select the file you want to work with, or scan a paper form.

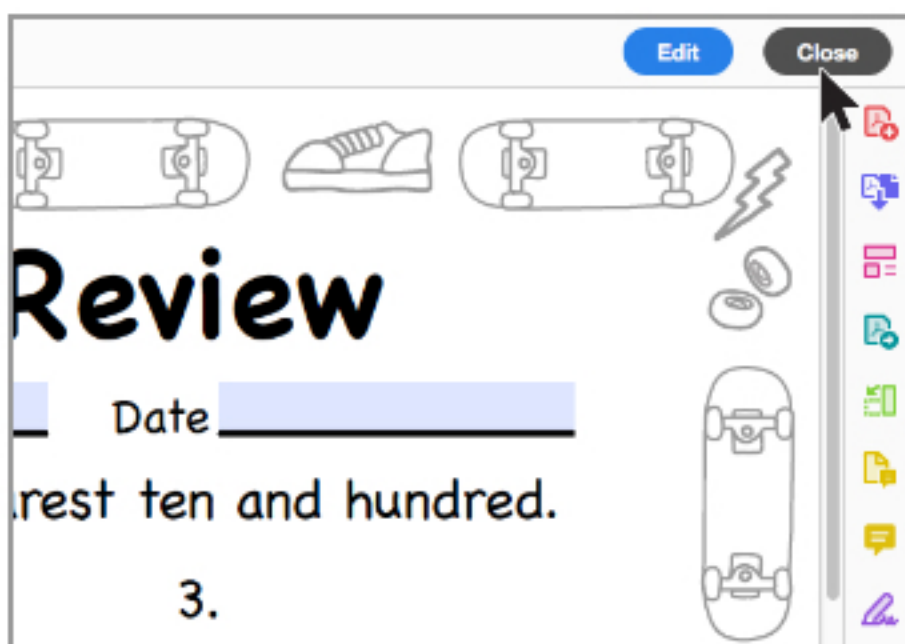

4 Add form fields, set font size, and edit text as needed.

5 Click Preview to review the form and test form fields.

6 Click Edit to make additional changes.

7 Click Close when you're finished

8 Click the Send file by email icon to share with your students.
